American Delegates to the Samoan Conference Complimented. [Copyrighted 1889 by the New York Associated Press.]

Berlin. June 15.—The American delegates to the Samoan conference are much complimented on the result of their labors. Mr. Phelps is regarded by every one as the coming finited States Minister, though he himself denies that he has been offered the position. The official press is disinclined to dwell upon the matter of the Samoan settlement, all the glory of which is lost to Germany, and the brief paragraph in the North German Gazette on the conclusion of the conference states that the agreement was arrived at with perfect unanimity by the Powers represented and to the satisfaction of all parties concerned. To-day being the anniversary of the death of Emperor Frederick, memorial services were held in the Friedenskirch at Potsdam. The exercises were conducted by Dr. Windell. All the members of the royal family, ministers, and high officials were present. The choir of the Church of Twelve Apostles sung the late Emperor's favorite hymns. The Emperor and Empress placed wreaths on the tomb and remained kneeling beside it for a long time. The Ecich-sameiger dwells on the recollection of Emperor Frederick's faithful labor for the empire, "which in royal circles, in German and Prussian history, and in the hearts of all the Germans have left ineffacable traces which will ever be a source of patiotic inspiration." The majority of the papers make respectful and reverent allusions to the anniversary, but a few revive the unseemingly strife of a year ago.

The Shah to-day instead of paying the expected visit to Krunp's Essen works spent another day at Willhemishohe inspecting all the points of interest, including the room which Napoleon III. occupied after Sedan.

The statement that the Persian and Russian ministers at Belgrade had proposed a Russes Servian convention has caused un-

ain private Russian railways. The North termin Gazete pointedly referred to the roposed operations as illegal and even il-

vernment would not have exposed Ger Government would not have exposed ter-man capital to heavy losses except to avert still greater dangers, and that had the Balkan affairs been peaceful nothing would have been heard of the illegality of the conversion scheme.

WAR THE END.

The Servian Government has refused to renew the commercial treaty with Austria-Hungary which expires in 1850.

Everything indicates that the Russian party in Belgrade are confident of its ascendancy and is working to effect some definite aim, and that its schemes can only end in precipitating war or in a peaceable partition of the Ealkan States between Austria und Russia.

M. Basly thereupon demanded that the Government compel the enhowners to concede the demands of the strikers. M. Constans explained that the Government was doing its turnest to effect a settlement between the proprietors and the employes. The Government, he declared, would not tolerate any rioting. He then moved that the subject to dismissed and the motion was lost by a vote of 237 to 232. A motion calling upon the Government to continue its mediation was carried by a vote of 297 to 232. The Work of TEN YEARS.

NAPLES, June 15.—King Humbert, accompanied by Queen Marguerita and the Crown Prince, assisted at the inauguration to-day of the work of improving the sanitary condition of this city. They were given an enthusiastic reception. Under the plans adopted the poorest district of the city, where the cholera epidemic of 1888 made such ravages, will be thoroughly renovated. Seventeen thousand houses will be demolished, new streets will be erected, and Main street from the Central depot will intersect the district which now contains the lowest and most pestilential dwellings. It will take ten years to complete the work.

The news received pointed to a satisfactory adjustment of the western-tate troubles, and western stocks were the only ones showing any solunation, while their advances approximated 1 per cent, in the first half hour-A culson and Burlington leading with 5, followed by New England, St. Paul, Northwestern, Missouri Pacific, and Lage Shore. Orogon Short Line moved up 2 per cent, to 51, and Toledo, Ann Arbor and North Michigan also made a sharp unward movement. Later, however, New England developed a marked weakness, and not only lost all of its early nivantage, but scored a material decline as well. Cheano gas followed, and the rest of the list then retired somewhat from the best figures. A better tone was shown just before the close, and some covering of shorts was included in, which railled the entire list. The market closed quest and firm final changes are irregular and for small fractions generally, but Tolesdo, Ann Arbor, and North Michigan are up by and Orogon Short Line 11.
